# Fulbright Awards for Canadian Students

## Traditional Fulbright Student Award

**(US \$15,000 for 9 months beginning in September)** This award intended for graduate students, prospective graduate students, and junior professionals. Canadian students can take up the award in one of three ways:

**Formal enrolment awards** are intended for Canadians who plan to enroll in a graduate program at an American university.

**Research awards** are intended for Canadians enrolled in a graduate program in Canada who wish to conduct research at a host institution in the United States for one academic year.

**Independent research awards** are intended for researchers who have completed an undergraduate degree or a Master's degree at a Canadian university and wish to pursue one academic year of independent research in the United States.

## Fulbright Foreign Language Teaching Assistant (FLTA) Program

This program intended for French-speaking Canadian students and teachers, aged 21 to 29, who want to teach and study in the United States for ten months. This is an opportunity for young educators to teach the French language and French-Canadian culture and customs, while engaging in non-degree studies at an accredited postsecondary educational institution in the United States. The award includes a \$400-\$600 stipend per month (commensurate with average cost of living in the host city), room and board, visa services, health insurance, and a bursary to complete two courses per semester that are most beneficial to the student's teaching career.

**All awards are subject to the availability of funding, approval by the J. William Fulbright Foreign Scholarship Board (FSB), and compliance with FSB and United States Government guidelines.**
